TESTIMONIALS

Club Med

As a construction manager specializing in high-end themes, I was immediately convinced by Cover Styl'. For the Club Med Group, Cover Styl' is the perfect solution for the renovation of our holiday villages and a good substitute for various carpentry work on doors, design elements and furniture. This technical solution has a twofold advantage: the implementation and speed have positive economic impacts and require less time than conventional renovations. The decorative possibilities, structures and different colors offer designers a greater choice than conventional products. After a first, very satisfying experience, Cover Styl' is now a part of our product references.

Frédéric DAVI - Deputy Director of construction (Europa Africa zone)

NOVOTEL

During the partial renovation of our Novotel in Roissy, France, we decided to use Cover Styl' to redo our Lounge and Spa. I must say that I've been pleasantly surprised by the reactivity and the advices provided by the Cover Styl' team. The solution/product itself is amazing by the quality of the result. The big potential of this covering product is astounding, especially since the installation support were not simple flat surfaces. Beyond the very nice finishes submit by Cover Styl', the architect select some specifics RAL, that has been customized for this refurbishment. This advantage saved us a lot of time and this is a true asset for Cover Styl'. That's why I strongly recommend using Cover Styl' for the hotels, especially with his incontestable price/performance ratio. I'm convinced that the word of mouth will make Cover Styl' the best refurbishment solution in the future.

Dominique GRANDJONC - General Manager - Novotel Roissy CDG

Club Med

This solution is different than a traditional one. In few words, Cover Styl' fully meets our expectations for long-term renovation. We have renovated over 190 rooms in a very short time and we recommend this very innovative solution for its quick application and resistance. It also has a very competitive price that makes it unbeatable!

Denys ROYER - Club Med Consultant

195 rooms seemed to be obsolete and Cover Styl' allowed us to put them on the same level without changing all the furniture. Cover Styl' was able to provide a similar wood color and uniformity of red that we needed. This choice allowed us to avoid the demolition of existing furniture and to simplify the construction of the work environment in a very short time. The flexibility, speed and cost of Cover Styl' have made it possible to renovate the elements without replacing them. For this reason, we have also been able to renovate some furniture and elevators that were not originally included in the project.
